

New Utility Rates

On February 26, 2009, the Brushy Creek Board of Directors approved changes in utility rates for Out-Of-District Water customers and all Waste Water customers based on a 2008 Cost of Service report identifying a need to increase rates for certain services.

The rate changes are noted below.

All Waste Water Customers

The Base Rate will decrease from \$8.00 per month to \$6.00 per month

The Volume Rate will increase from \$1.90 per 1,000 gallons per month to \$2.70 per 1,000 gallons per month.

The District uses winter averaging to calculate waste water charges by averaging water use from the months of November, December, January, and February. This calculation is performed annually. Your bill may increase or decrease depending on the rate change and your water usage during the winter averaging period.

Out-of-District Water Customers

The Base Rate will increase from \$14.00 per month to \$37.42 per month.

There will be no change to the Volume Rate.

All rate changes will be effective for the consumption period after April 13, 2009.

There are no changes to In-District Water customer rates.
