Installer Information

Company Name: _____

Phone Number: _____

Office Address: _____

Fax Number: _____

Contact Name: _____

Email: _____

Signature of Company Representative: _____

To be included in project

Gas to be installed by installer/others

Backflow/Auto fill

Requirements

- 1 If this pool includes auto fill, a double check valve assembly with test ports and valves must be installed in a separate box in the ground near the water meter. If the pool is to be filled by water hose, the above valve assembly is not required.
- 2 An inspection must be completed by the District's inspector before the pool is filled.
- 3 A set of plans showing the location of any/all of the following features
(These plans must be filed with the District office at the time a plumbing permit is requested).
 - gas line
 - backflow devise
 - auto fill devise
 - Utility and Drainage Easement Locations
- 4 **If you marked that you will be including Gas or a Backflow / Auto Fill in your project - there will be a \$50 prepaid inspection**
- 5 **No bond is required, but a \$50.00 permit fee is required.**

NOTE: To ensure contamination of the public water does not occur, the back flow prevention device must be tested upon installation and every year thereafter. This is to be done by a certified tester and a copy must be filed with Brushy Creek M.U.D.. This testing will be at the homeowner's expense.
